

Reading Plus

Reading Plus provides targeted reading intervention in fluency, vocabulary and comprehension for upper elementary, middle school and high school students. The program is designed to ensure high success reading experiences for struggling readers who need affective reading practice to become proficient.

Reading Plus delivers highly differentiated and explicit instruction builds motivation, confidence and proficiency for reading levels 1-12.

Program Components

Automated Placement Test

- Quickly and accurately identifies the optimal instructional reading level

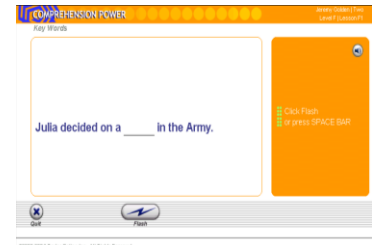

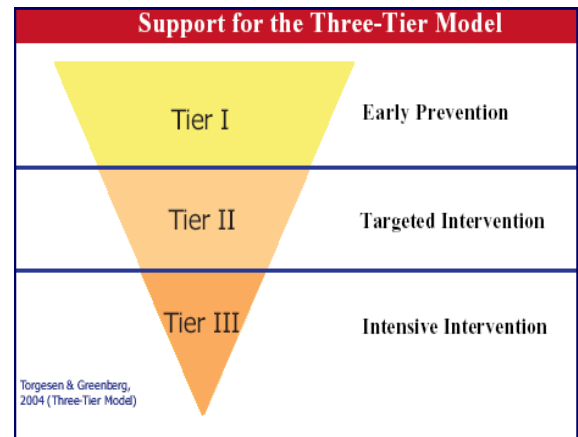

Structured Sustained Silent Reading Activities

- Automated session adjust instructional flow for each student within 30, 45, 60 minute sessions
- Attention-building warm up activities build perceptual accuracy and visual efficiency
- Engaging content from appropriately leveled high interest passages from a variety of genres
- Structured independent and guided reading activities build fluency while increasing reading rates in accordance with comprehension
- Intensive comprehension practice across 25 comprehension skills
- Vocabulary and contextual analysis skills are developed progressively to ensure academic vocabulary is mastered before progression to higher level content

Data Driven Progress Monitoring

- Built-in assessments and detailed reporting on student progress

Proven Effective Tier I, II, and III Intervention

LICENSING INFORMATION

Reading Plus is delivered online (annual subscription) or on a network. Licensing is based on the number of concurrent (simultaneous) internet users that are accessing each program at a time. For instance, a 10-user license will allow up to 10 students to work simultaneously. This does not limit the number of students, nor computers that have Reading Plus access.
